Dcdge's Ciothes Washer-Twenty years' ptactical experience in farming, and seven years experience in the manufacture of plows, has enabled the patentee to offer to dealers and to the farming community a series of plows for general purposes which he thinks are unequalled. They are certainly PER-FECT in their structure, well adapted to the wants of every farmer, and he does not he sitate to laim for his plow the FIRST PLACE among the best that are made. The leading character-

sties to which he would call attention are as follows: First-Great strength and durability. Second-Very light draft. Third—Simplicity of construction and ease of repair.

Fourth—Adaptation to every kind of soil—can use either steel or cast points; cleans itself under all circumstances, shedding even the stickiest and most putty like soil, with case. Fifth—It is in adjustible sections, either of which, when worn out, can be as easily replaced as the parts of a cast-iron plaw; thereby saving the remainder, which would otherwise be thrown away. Indeed, the standard and frame work, the principal, and as it were the vital parts of the plow, are so effectually protected by a movable land-slide mold board and point that they never wear out; thus giving us, in a word, a LIVING PLOW. Also, by removing the mold-board, a scraper or sweep attachment may be used, thereby converting the plow into a

first rate scraper or sweep, thus making three implements of one at a small additional cost. Sixth—Superior material, workmanship and high polish; is symetrical, and of great artistic Eighth-As a result of all the above, economy in labor (both of man and beast,) economy in the num er of implements, thorough culture, and superior crops.

The manufacturers warrant these plows to answer the description thus given, and if after a fair trial they fail to do so, the purchase money will be refunded on the return of the plows to

Dodge's Kentucky Bells! Have been made in this city and sold in all the principal cities in the Union for nearly twenty years; and although their great reputation has led to the manufacture of many imitations. no one has ever succeeded in equaling them in strength, durability, clearness of tone, and fullness of sound. Be sure that the bells you buy are labelled "J. Geo. Dodge's Kentucky Bell.

The Dodge Washer, (Patented July 16, 1867,) is warranted superior to any that is made. Our standing propose tion is that, when on a fair trial it fails to do twice as much washing as any other makine, in

the same length of time, and with less wear of the fabric and labor by the operator, we will give one of our machines to the owner of its successful competitor.
